Do go and look at the schools that you are interested in.

When visiting a school go with an open mind.

Don't listen to the opinion of others – make up your own mind.

Do talk to your child about the schools that you have visited

Just because a brother or sister attends the school. doesn't mean it is the right school for the child you are applying for now.

Do complete your on line application by the 31st October even if you do already have an older child at the school.

Complete supplementary forms if the school requests one.

**Remember no application ,
no place!**

How to apply

Applications are all online through the website

www.eadmissions.org.uk

You can put up to six schools down on the form – you don't have to but I would recommend putting down at least three schools

Be sensible with your choices. Look at the criteria laid down by the schools and see if you meet them also look at the distance they went out last year
